I come here on a regular basis and I had no idea that this change was taking place until I visited <http://blackcell.net>. Seems to me, with as many people who play WOL that this <http://xwis.net/> would be everywhere, including the rengaurd splash screen. Hell, I almost downloaded ad-ware so I could play Renegade. Have you people heard of AADD? Please be aware that there are people in this community that have a short attention span, and only follow shinny objects, and so on. Terrell Owens is a jackass, but I love to see Philly having hell. Well, I hope this helps someone. BTW here is the link to the tool.
<http://xwis.net/downloads/XWISC.exe> Who agrees to a 3 year contract in 2004 and demands more money in 2005?

What kind of silly are you? The WOL->XWIS thing was staring at you when you brought up the Wiki, yet you fail to notice?

Imao. The 14 page topic regarding this is a dead giveaway that we knew about this too....for a while I'd say.....but maybe I'm wrong, No wait, I'm NOT!
