The WOL database is NOT being given to XWIS/Strike Team. When you log into XWIS, your nickname and password are registered on that system.  
Remains my question: how many can you register? Some have been able to register 25, others say they can only register 3...

To the best of my knowledge you are limited to 3 per serial. The problem is that the XWIS software doesn't provide any useful feedback when you're registering these nicknames so you don't know if it's successful or not until you try.
