Ok IKA ill show you..

Im going to get my server and put a name on the file take a screenshot and it will show im not found on the network even though my server is saying i am connected, then ill take the file out and do the fucking same and see what RG HAS to say then.

Right now ive took them.. lets go!!

Ok now try and tell me anything diff from that

## Admin Message from Host

To use !rg on this server, you need RenGuard. Download it from [www.renguard.com](http://www.renguard.com). With RenGuard, your Renegade is always kept up to date with the newest patches from Blackhand Studios!
