ok ok so u showed me something new. but here is the really big thing. if the bot says i was using rg and i always do what does it matter if i was on the network or not. i was using rg. so tell me. are u saying i cheat. is that the whole point u are trying to make. that u think i cheat. i mean really u know more about cheats then i do. i just play the game. besides i hardly play my own server anyway cave lmao ur a fool for even thinking i would use a cheat.
