I don't think there's anything wrong with not playing clan wars. Honestly, I don't now, and never really did, enjoy playing clan wars over public servers. That had something to do with the kinds of people and behaviour associated with clan war players, and something to do with me not necessarily looking for a challenge every time I play video games. That said, I have to agree that players who play can wars often are usually better than players who don't.
