Subject: RG firewall issue
Posted by runewood on Fri, 25 Nov 2005 20:17:37 GMT

I have been using RG for the last several months with no issues. After playing for 3 hours today there were no issues. When I tried to get on after a break it said "Unable to initalize network, perhaps your firewall is incompatible with RG" My Firewall says its allowing full access to RG. It has always allowed me to use it before. Does anyone know whats wrong and how to fix it?
