Recently installed renegade again had a few games today not played properly maybe once or twice in the past 2 years... damn i missed this game

i'm also suprised there are still so many idiots out there who dont know how to fly etc..

one thing i did not miss was the extreme lag and drag and warping

but oh well

its also nice to instantly log into WOL. or should i call it XWIS now and not wait 5 minutes after a few timeouts
