caveman wrote on Thu, 10 November 2005 23:52 Funny story this, i was playing on the AUG sniper server and i noticed IKAIKA was playing better then what he normally does, so i typed !rg ika and it came back that he was using RG, so i went on IRC and i typed !rglocate IKA and guess what i found...

is a accusation. i mean really read it.

anyway here is the point u said ur bot didn't see me and mine did, both of them did. the 1 for the sniper server and the ss i gave of u was the aow. besides u don't read what i post anyway. lol like u said doctored ss's yes i believe u have some. it is not hard to put together the ss's u have and made. so it is ur work against mine and to many ppl out there seem to think i am not that good and know i don't cheat and don't need to. so go on ur way with ur bs and take it up with some 1 who cares. i know i don't cheat don't need anyway to cheat and have no desire to do the things u say i do. u seem to know more about the whole thing then i do so ppl u tell me what is what. if he had to go through all that trouble to explain to me how it works then how could i do it. things that make u go Hmmm.....
