I DONT KNOW WHY THE RELOAD WONT WORK RIGHT...

I tryed naming the parts of my gunj exactly the same as the parts of the pistol (used w3d to gmax exporter and checked things too)

It was exactly the same except for the texture and the midel and it still wont work right...

and that thing with the buggy and the... uhhh you lost me after the first sentince i tryed but huh?

its ben so long sence i used gmax i cant remember shit...(i made these guns awhyle ago)
