Go to the tunnels that goes behind the nod ref and that comes into a bunker.

When in the bunker u walk back and you can see nod base at your right hand. Then left, just when the tunnel goes into the rock there is a very little "corner". Go stand in it and start jumping. Let someone else push you and you will be able to get up there. Then you can walk via a stone arch to the other side (there is an invisible wall so doing the first trick here will not work). You will have to jump over the invisible wall from the stone arch. Now u can hang around there a bit and have a little fun :P:P

Any experienced with jumping over walls with 2 ppl is required I think.

If u all like this I will post some more funny things.
