I:was this leak, your identical mod, or did they change it and release as their own?

R:identical and they release

without our permission

Anybody else reading this get the opinion that Renardin's choppy English convinced the guy that we stole/ripped Reborn and tried to redistribute it under two engines?

Every line seems to reinforce this idea. Why else would the uh, Intense! guy keep asking if it was ripped/identical/released?

Nobody's contacted me yet, I dunno about Aircraftkiller. I'd LOVE to have a chat with him.
