---

I already know this for a long time but there are many ppl that don't know it. Has this ever been post here? Mostly I see ppl here being all mysterious.  
Like when somebody talks about Ob walking some ppl say: yeah you can get to AGT very easy too. And then someone else: yeah don't tell em, if they don't know it they don't deserve to know it. Things like that.(very easy in fact, just sneak behind harv or run to AGT from the tunnel when harv passes by.  
But heej this funny bug is better then all the other strategies here that say things like: On field you can buy a becon and then place it next to the refinery!!(Ehh that's not a trick anymore, that's just a fact just like you can buy a tank and drive it on the field :rolleyes: )

2 bad ppl never share these things because they are to proud of knowing it.

And if u know 2 more places why don't share em here. I like to learn new tricks and things like that.
