Heeeey.. I'd let you know once it's out, my friend.

Hilarity of the moment from #renalert:

(13:05:51) (+GDIrish) Im still banned from there

(13:05:56) (+GDIrish) and he wants me to work for him

Renardin's awesome PR skills have him courting a banned member to be the new concept artist for Reborn. A concept artist for a mod I lead. Now I'm torn: do I tell GDIrish to go ahead, or do I keep him exclusive to my mod? =O

Edit:

Apparently a lot of the bugs that I reported just from seeing the weapon teaser video months ago are still there. Check out my report which was ignored on Reborn's forums before they delete it and pretend it never happened, quick, quick =P
