It's a problem with RenGuard, nothing is wrong with your PC. I would suggest you make a shortcut to C:\westwood\Renegade\Game2.exe on your desktop and click on that to open default Renegade without RenGuard loaded.

Just try to connect to RenGuard, and if it doesn't work open up the shortcut your just created to C:\Renegade\westwood\game2.exe. Re-try every 2 hours to connect to RenGuard.
