I think it looks crisp, clean and distinctive. I like the sounds because it says it's Red Alert, but with a new flair. However, I think the glowing effect before "A Path Beyond" appears looks a little corny. Perhaps the lightning could be much more brief, flash out from the sides and then have the name slowly reveal itself out from the center, as if they are scorch marks that quickly mold into the gold that it currently is. That would be just dreamy.
