Quote:I manually installed Core Patch 1 seeing as RenGuard did not even try to. Oddly enough, I never had working Emoticons before I manually installed Core Patch 1 myself.(Despite the fact RenGuard used to install it for me.) But that's neither here nor there.

Everytime I tried to install CP with Renguard it always had said Failure to write code "Some weird number" The first time i installed it was the only time it had installed right for some reason.
