lot of games this month, no? But contrary to popular opinion, none of the above clans play those cws just to prove how leet they are... it's just clanwars are so much more fun than public servers. Level of competition is higher, it isn't so ridiculously easy to win them as your average public server full of noobs is... you actually need skill, strategy and teamwork to win (compared to public servers where it's perfectly possible for one person to win a 30 player game singlehandedly ) and it's a lot more fun when there's a league for it.
