i dont

Sniper\_De7 wrote on Thu, 09 February 2006 00:42I was playing in the Fnfall's server today. There was a guy who was using big head and nothing was done about it. Yeah, great moderation my ass - in fact; that server is the only server i've ever seen a cheater, or suspected one in the last few months. (Though when a Nod soldier can shoot you 6 headshots in a row across the field on city and suddenly not be able to hit you for a full 5 seconds (Yeah, good going cheater, that wasn't blatantly obvious use of big head, shoot 6 bullets and stop) Not like it made a difference in the end. Why in Earth would you use big head and get 3 kills total is beyond me. Back to the point.. I've seen more cheaters in a non renguarded server than in any renguarded one. At least when no moderators are present I can actually do something about people who use cheats

If u find a cheater and no mods are ingame or on irc then get proof(like a screen shot or something like that) then !poll kick them and then post the proof at [www.fnfall.com](http://www.fnfall.com) and it will be taken care of.
