What he SAID was...i saw in my friends server that when u got a stealth cr8 u veh was stealthed also
what i wana no is if there is a way to turn this on or off
cuz it doesnt happen in my server and we both run night reg

and also is there a way to change the cr8 spawn time
What he REALLY meant was...In a friend's server, I noticed that if you picked up a Stealth Suit crate, your vehicle(if you have one) also becomes Stealthed the moment you step in to it. Is tthere a way to toggle this on and off, as this doesn't happen in either of our servers, despite the fact we run NightRegulator.

Also, is there a way to increase or decrease the amount of time it takes to spawn a new crate on any given map?
Just in case anyone was completely baffled like I was when I first read this post.
