hi

Im from germany than my english is not very good but listen and help me pls

soo

I want to start renegade today, and than renguard have been Download an Update.. My computer want to install the update but it comes the following window

i dont know what i have to do right now

when i start renguard than he want to install again

What i can make? so what i have to do to fix it?

and sometimes go my monitor off! really no shit.. my monitor is going off at the install...

i think its a very big bug @ renguard

Please help me i wanna play again @ the best server unrulez
