danpaul88 wrote on Sat, 25 February 2006 17:20Kamuix wrote on Sat, 25 February 2006 19:21I am using JFW\_Preset\_buy at the moment by just using a Zone.

What I did was;

- a) clone the PT object (aka temp button)
- b) set it to unteamed
- c) add the JFW\_Buy\_Preset script

I would suggest making a PT model, like the standard renegade ones, to show where the purchase zone is, it will show up like the normal PT's do.

Temping works serverside? I assumed that would crash people.

Thanks for the help I'll try that.
