Subject: Brenbot Bans
Posted by sycar on Fri, 24 Mar 2006 22:28:10 GMT

Hi guys,

I have a fds runnign brenbot and cp2 etc. however after a few hours of one of my mods playing they will just be banned, and cant rejoin, however they are not listed in the ban or kick list and when i open up the .dat file in sqlite viewer they're not listed in that either.

Any ideas?

thanks buffymaniack
