Testing is not even 1/100 as hard as most clan tests, in fact; its very simple. Youre tester (anyone rank sergeant and above can test BTW) will count to 10 while facing a wall, you have that much time to hide, once 10 is up, you must hide for 3 minutes, but you don't have to stay in one place, you can move to different locations. I f you fail you get to try again, if you fail twice you must wait a week. If you pass the first or secound time, you will register on the forums and become a CRC member!

that might just be the best post ever on this forum.
