Hehehe, looks like mr. butt pirate here isn't such a douche bag after all, wait i take that back, he's not such a moron after all. Looks like you found out my little chain between names eh? Took you long enough. BTW: if anyone knows one of those sites where you dump enternet chat logs for people to laugh at, tell me. This is gonna be so hella funny.

You all got played, this has all been a big joke, i started up my clan, then once mrpirate here started acting like a fool, i thought of a better idea, i thought i'd just make you all look like losers with no life; which i succeeded in.

You spent you're time posting, writing pissed off and annoyed comments and replies, paging me, trying to find ways to get back at me for taunting you and insulting you.

You have become my paper on human studies over the enternet, my teacher told me to pick a topic on how certain actions, ideas, and insults effect the human brain and the actions of the human brain.

You may find this cruel, and i'm sorry for dragging you into it, but you were so ripe for the plucking, and i needed a quick thesis idea. Thanks for helping.
