You are correct sir, Vehicle limit is 8, counting the harvester. If your team has 7 vehicles, and someone purchases another at the same time the harvester is destroyed, I believe it is possible to have 8 units. I personally don't use SBH or stanks but, if I was out just to kill, a stealthy character is a good choice. I don't understand stanks at Hourglass. There good for shooting over the crest, I would still be in an arty though. Flamers all the way. Flamers, artys, and APC's are the only vehicles to buy at Hourglass.
