Whenever I hear about these idiotic conspiracy theories, I just remember that my own boyfriend (whom you all know as Blazer), LIVED in Arlington, Virginia on September 11th and he actually, with his own eyes, saw the low-flying plane right before it struck the Pentagon. He lived in a high-rise building of condominiums on one of the upper floors and had a nice view of the city. He said the plane was so close that he probably could have seen the pilot and passengers (if it weren't going so fast, I assume).

So, say what you like, but just remember that you're calling Blazer a liar.
