...having your sig flip people off doesn't help your case either.

By the way, we're talking about terrorists. Whose to say they didn't have a little 'boost' from their luggage?

I can drink a can of soda and nearly choke on it, you can't help how your body reacts to what you're putting into it. I've had times where I drank a Sprite and nearly passed out from being unable to breathe after the first sip, since it went into the wrong hole in my throat instead of simply falling into my stomach.

Using that against someone is idiocy, please remember that he's as human as anyone else is.
