I think the thing most of us were waiting for was naval warfare and RA infantry and vehicles. Just relase what you got on Zama and then you can forget about it. I played Ren Alert for like 48 hours straight when it first came out, but now we know all the strategies and it gets boring with only one map. If you guys don't want to finish it, give it to someone who will like SomeRhino. He kicks ass at making maps.
