well seeing how RenGaurd sux and does absolutely nothing i don't even see why people have Rengaurd it can be bypassed no problem and solves nothing. if you think they cheat but you ONLY check rengaurd then think they DONT then you could be wrong cause they can easily bypass it the only way to actually catch someone cheating is to prove it with a test and some screen shots posted in a forum. just to be 100% sure of them not cheating.
