Omgf! lame strategy! So simple! get 1 apc, of cos u have a nuke or ion whtever, place beacon, go back in ur vech, stay away from the building doors! when any1 tries to disarm the beacon, shoot them, of course only idoits would come out running with c4 attempting to kill ur apc when ur apc is far away. DO NOT COVER the beacon, just move away and shoot any1 who tries to disarm it.

I know almost all AOW tricks. trust me. Battle me anytime ^^
