Here's a question that hasn't been asked for the duration of this topic:

"Who cares?"

England's gun-related crime is irrelevant to the fact that the second amendment guarentees:

Mad TV version of Karl MaloneThe right to bear arms, and "arms" means guns and "bear" means have, so that means you should bear guns.

And it's most likely not going to change for a while.

As for the 9/11 stuff? Drop it. It's over. The time for that was about 4 years ago, when people still gave a shit.
