Quote:The 20GB PS3 will not feature integrated 802.11b/g. Furthermore, the 20GB version will not feature HDMI output.

They will rethink that, those are two very important features that they can't afford to charge \$127.09 more for.

I highly doubt they can afford to charge \$634.17 for just the base unit. We will just end up being screwed on the games end paying \$70-\$80 on games.
