I made mission map M10 the last few weeks. Dudley was kind enough
to add it to the package

You can download it here: http://www.game-maps.net/index.php?action=file&id=562

If you were already running v1.75 then just:
- extract m10.mix to \server\data\ folder
- extract all .txt files to \server\data\ folder of server
- extract objects.ddb to \server\ folder
- extract server2.ini to \server\ folder

Have fun and i hope you like it.
