Crimson wrote on Mon, 22 May 2006 22:43Play on the n00bstories server and connect to teamspeak... often we have like 6-10 people or even more and we pull off some really fun coordinated attacks.

Also, I added a mod to my bot that automatically puts players in the right TeamSpeak channel for their team and keeps others out.

Id love to play on the n00bstories but it ALWAYS full when i go to play. Maybe make a second server or something?
