Not very good, now thats funny, and what do you consider good? kills? avoid getting killed? in wich is rather stupid rating, i dont play for kills or for score, i have a much larger objective in mind, the victory of the Team. you dont want me against you, in a proper working team i am a very deadly adversary.

After playing for well over a year i am hardly a newbie, not a veteran, but certainly not a newbie.

NOD NOD NOD NOD NOD
