I'm a drummer and I've just been teaching myself for almost 2 years from watching people or listening to music with headphones and trying to copy the beats. I know nothing about polyrhythms or any of that other stuff you stated but I do know that drummers are not "just hitting stuff". That guy obviously has no idea what he's talking about... maybe when he plays he just goes off wildly hitting everything as fast as he possibly can and he thinks he sounds amazing haha
