I agree with you JPNOD, in the end it's up to the Admins to allow this and that etc.

UPDATE=

I have updated the Clan list on the Renegade WIKI now:
http://www.renegadewiki.com/index.php?title=Renegade_clans

I have more Clans on my Internet favourites, but a lot of Clans are still inactive/dead although their sites are online. So I only put those into the list who are really active in Rene.
