If it was true, the guy would have known that it was just a one time thing. Even if he did become "in love" with the girl, he's not going to suddenly hate sex because she doesn't want to be with him. How the Hell do you get that? Just because he's scorned by a woman doesn't mean he's going to hate the pleasurable experience that is sex.

Fucking a prostitute does no better. It just morally degrades you even further.

Humans are sexual beings. The sexual desires of today are the same as 50 years ago. It just has become more acceptable.

Also, it's not that hard to find an innocent and honest girl. You just have to know where to find them.

As for not trusting anyone. You shouldn't get married to someone you can't trust, anyways.
