i'm sure you have all heard of the great downfall of guinet in Chigaco on the stateagic events of the 1980's, to just think about it, how many downfalls have their been more statistic than this, and was the downfall of the 90's actually staticic? Under the infuenceia of goreadorm. NY was a big one.

How many of you think this might happen again..or get worse?
