I don't think I was calling anyone dumb because they couldn't spell. Maybe you're thinking of someone else. I said it was stupid to say that I correct people's grammar all day long, when I just said (for the third time in this thread) That I've only done it it three times about this past year, and in fact, it's all in one thread (here). Why would you

1. Talk shit to me when Dave Mason(DJM), AircraftKiller, and whoever else you think correct people's grammar, do it WAAAAAAAAAAAAAY more than me?
2. Say that I haven't a life when I obviously don't correct peoples grammar (see above)
3. START arguments after the *first* time i've corrected someone else in over a year.
4. I could probably go on but you get the idea and that's enough.

So do you see why someone might think you not intelligent if a guy specifically states he doesn't correct others peoples grammar over and over and yet you continue to say it? Also the fact that you argue with the wrong people and haven't stopped even though your anger should be pointed at the people I've already stated. I don't usually correct other peoples grammar at all, I only did it to troop because he's a fucking moron and an asshole. I know there are foreign people here and I don't care if they don't talk english perfectly as long as I'm able to read it. Your/you're are the most common misspellings, so I'm not going to correct an easy mistake. Then again, I don't see why people get bothered on the internet at all.
