During Single Player Mode, you just can't help but notice those OTHER vehicles, like the Hovercraft, A10, The Helicopter that Sakura uses on you on the Island level, and so on. I was wondering were can I find these files and if it is possible to to use them during game play. If it is necesarry to program the movments to make them work, then I will be willing to do it.

Think about it there are some new maps which have a lot of water, a Hovercraft would be pretty cool to use.
