Maybe*
not, but*
friend is*
cheater*

...What the hell is an asswiser?

To refute Havoc's point, cheating isn't always cheating. Back when I used to suck at video games I would need the cheats in StarCraft to get past some missions, and the cheats in the Grand Theft Auto series just make everything funnier. I hardly see how those are equivilent to hacking in public servers online and ruining other people's fun.
