i actually know these ppl. myth (mythbusta < renegade name) is a very dear friend of mine and he was the first person i met when i started playing 6-7 months ago.

AoA Shadow and Kyo are owners of the clan AoA. i set there first server up for them. and i got mod stat for doing so. i seriously doubt that they can do this since non of them have any knowlage what-so-ever in "hacking" plus, XWIS is very large, has many servers and will be very hard to hack into.

aparently, he "they" are going to hack AoAxwis, a member of their clan due to a fight they had a while ago.

MSN chat with AoAShadowThe Merovingian says:
