Perhaps your English is bad, but, to me, you just implicitly conceded that most of the players on your servers think the Harvester thing is stupid too, but don't let it bother them enough to stop playing there. And, honestly, if the switched Harvesters were the only modification, I wouldn't stay off your servers.

I suppose you didn't actually write the modification to switch the Harvesters, but if you ever come across the reason and have the opportunity, I'd appreciate it if you'd post the thought process behind that move, because I'm sure I'm not the only person curious.

I understand... You are one of them players who started to shoot your own hav just cause it had the enemy skin colours... then getting told the skins was changed and felt like a idiot, which as I seen, is not a new thing to you.

Would you like a small shiny metal box to play with`?

I would hate to be you, if you let such a little thing as this annoy you so much.

There's no need to resort to personal insults, and certainly no need to insinuate that I'm bad at Renegade when I'm actually very good.

I'm not really trying to attack you here, and while I'm curious about the Harvesters I thought I made it clear that they are not the sole reason I dislike your servers.

You don't have to be so defensive.
