do your hate speak no more. get the fuck off the forums if you're gonna talk like that, but I will be laughing on the day you die for talking like that. out of all the gay people I have known (male and female) you are a worse human being than all of them just for saying that. you cant fucking come up with an argument when you are wrong, so you fucking make a lame ass attempt at insulting me? I will be dancing on your grave when you die
