Spetz5 wrote on Sat, 24 June 2006 22:35I just get
"ERROR"

"! Invalid Project"

Reborn wrote on Sat, 24 June 2006 07:55Although your url needs to change to not include the
fullstop

Meaning: the url needs the . taking off the end....

try <http://www.sourceforge.net/projects/rentools>

Oh, and GJ to everyone involved, keep up the good work
