Those possibilities are far fetched. What makes you think that if we didn't invade they would have attacked us, with Nuclear weapons even? It's amazing how people can defend a political party to this extent. It's like no matter what they do there's always a reason for it, if it was Kerry that did that you would probably wanna kill him (No I'm not a Kerry supporter, I'm just stating something). If the Bush Administration fucked a dog in the ass you people would probably make up more excuses to protect them.
