warranto wrote on Mon, 26 June 2006 10:32The only problem (for me at least) is that when I DO crack down on things, I get a dozen private messages telling me to back off and stop being a ... "forum nazi".

Quite simply, there is no pleasing you people. So i've backed off, and am only going after the most serious offenders.

Tell them to shut up and either abide by the rules you set in place, else they can go somewhere else. We don't need these idiots going to you and complaining about being too strict. They're probably the offenders, anyways.
