That will also become a wallpaper as soon as I finish it, should be done within the week. I've been working on this for nearly three weeks now.

Looks very nice.

Just one thing I'd like to point out: On the "Axe & Hammer" poster, the domain name is <http://careers.axe&hammer.com>. & isn't valid in a domain name, so you \*might\* want to change that. I'm probably the only person that will notice.

Other than that, it looks great.
