My dad built his new computer and I helped!

We got a great deal on the hard drive! 300 GB Seagate HD for \$80.00!

But anyways...

yeah.

I made bootdisks for my old computer still says NTDLR is missling...

but I got to get another keyboard. kwyboard is what is causing some problems but yeah!

About the comp me n' my dad built.

300 GB HD

128 vid card (i think 128)

Motherboard that supports dual vid cards! w00t!

crappy CD drive but it was 20 buks and were pour.

floppy drive.

awesome processor (dont know spicefics)

500 watt power supply AND ITS SHINY SO SHINY YOU CAN SEE YOURSELF IN IT!!!!!!!

See through case with cool LED's

Yeah... ok I8r downloading Americas Army to see how it runs!
